TURANVILLE SHORTHORNS

Welcome to our 17th annual bull sale at Turanville. This year we offer our 2022 drop "T" bulls and a run of 2023 "U" Autumn drop bulls, registered and recorded with Performance Herds Australia (PHA) Ltd. PHA consists of a group of progressive seed-stock breeders recording pedigree and performance of progeny from Shorthorn and Shorthorn cross females across Australia, representing some of the oldest and largest Shorthorn herds in the Country.

Our season has seen a dramatic turnaround from 2023 and the "T" bulls have now had a chance to develop to their genetic potential after their tough first year. As has been our main objective for over 20 years, the bulls have been prepared with no grain supplement - just pasture and crop. This objective is all about the commercial longevity of the bulls post sale day and into their working life. They have been vet checked and semen tested, fully vaccinated and will present in good working order ready to give you trouble-free service in future years.

At Turanville the bulls are left in as large a contemporary group as possible in order to measure their data and utilise Breedplan to help identify more predictable animals, with the genetic mix to drive the commercial breeder's profit.

Turanville genetics have gained a reputation for performing well in numerous carcass competitions over the years. These results, along with the continued feedback from feedlots and MSA kill sheets all help us to measure the important commercial performance of our cattle and identify the bloodlines that best suit market requirements.

This year's draft includes 18 sons of powerful sire The Grove Terabytes N0615. He was selected for his physical style, balance and muscling along with strong balanced EBV's with marbling in the top 1% for his year drop – he has not disappointed as a sire with over 250 progeny and a testament to his genetic strength is seen in this catalogue siring half the bulls. The Grove K0749 has 5 sons who as usual will impress. Broughton Park Senator Y65 has 4 AI sons and Sprys Primrose's Buddy J17 has 1. There are also a number of bulls marked as suitable for heifer joining. There are 5 Durham Red Bulls (50% Red Angus) with the first sons of Taloooby Red Quantum Q745 on offer. Top price at the Taloooby bull sale in October '21 he is leaving outstanding commercial sires able to bring the benefit of heterosis.

Please view the bulls on our website and link to the Performance Herds Australia database to study any further information you may need: www.turanville.com.au

We would like to welcome you to Turanville and look forward to catching up with you for an inspection of the bulls on sale day or at any time prior to that.

Kind Regards

Doug, Nic, Angus, Henry and Sophie Robertson.

Information

Inspection: Bulls will be available for inspection from 10.30 am on sale day. We recommend and encourage prior inspection so please feel free to contact us to arrange a time.

All prices GST exclusive

Helmsman selling system - Sale will be interfaced on Auctions Plus.

Agents Rebate Terms: 6% to all agents contacting Doug Robertson at least 24hrs prior to the sale introducing clients via email and attending the sale, then settling per Turanville Partnership terms on RCTI within 7 days – Strictly enforced.

Guarantee: In simple terms, we stand by our bulls. In the unlikely event of infertility in the six months from sale day if a bull is totally infertile or totally incapable of natural service, provided it is not caused by injury or disease since the sale, we will replace or refund the purchase price (without expenses) less salvage value. Any claims to be made within 6 months with a relevant veterinary certificate. Please contact us if you have any concerns.

Health: Fully vaccinated for 7 in 1, Vibrio and Pesti-guard.

Fertility: All bulls have been inspected by Peter Gorman of Upper Hunter Veterinary Services for structural and breeding soundness, including reproductive examination and semen testing.

Delivery: While every care will be taken, no responsibility can be accepted whilst awaiting delivery. We encourage you to insure your purchases.

Breedplan Performance Data: All bulls are registered with Performance Herds Australia (PHA) and have Group Breedplan figures comparable to PHA cattle. These figures are not comparable to The Shorthorn Society of Australia figures.

Weights and Performance Data: Up to date measurements available on sale day.

Disclaimer: The owners, employees, sale staff and representatives accept no liability for accidents that occur, any person attending does so at their own risk. Please be aware of the dangers inspecting bulls in sale pens. While all care has been taken in the preparation of this catalogue we accept no responsibility for any errors or omissions in this publication.

Turanville Client Results

EKKA PADDOCK TO PALATE

The Grove Shorthorns have held an illustrious position when it comes to the EKKA Paddock to Palate Carcase Competition. In particular Class 40 the HGP Free 100 Day Fed category. In the past 4 years (since the inception of Class 40) The Grove has taken out Champion Overall Pen three times.

The domination of The Grove in this competition over the years has showcased how versatile Shorthorns are, be it in the feed yard or the chillers the results speak for themselves.

In the 2024 feedlot performance section results The Grove took out the 40a Class for Best Weight Gain Pen of HGP Free steers with a weight gain of 2.452kg. Of particular interest to us is that sires purchased from Turanville are represented in this great result. Turanville Informer P85 (purchased 2019) has 3 steers and Turanville Crusher Q92 (purchased 2021) has 1 steer.

Congratulations to the Morgan family and best of luck in the carcase section next month.

JBS Northern division general manager of livestock Edwin Cooke, with Ash Morgan, The Grove Shorthorns, Condamine.

Turanville Client Results

2024 DUBBO SHORTHORN NATIONAL SHOW AND SALE

On the back of her previous successes, Gillian Leeds and Leeds Family Shorthorns achieved a tremendous result at the Dubbo Shorthorn National Show and Sale in 2024, with 3 sons of Turanville Minister Q79 leading the charge of the sale team that took out the most successful exhibitor award.

Returning to the Turanville Sale in 2021 Gillian purchased Q79 attracted to his low birth weight, calving ease and marbling. This was after the success of Turanville Zulu C101 and Turanville Image E108 purchased back in 2009 and 2011 respectively. His first crop of calves produced the Champion Unled bull. Then in the led classes the judge selected a young white bull Leeds Landline T70 as the Reserve Junior Champion bull. Lot 72 Leeds Lloyds T51 then came out and was awarded Senior Champion bull.

Congratulations Gillian and family – it is exciting to see you achieve great results with Turanville genetics.

Leeds Lloyd T51 Senior Champion bull held by Sam Parish with Gillian and David Leeds at Dubbo Shorthorn National Show and Sale 2024.
